

Unleash Learning in your school

A new way forward for *advancing*
teaching and learning,
school-wide.

Our Vision

We want to see resilient teams, who can expand their meaningful impact on the lives of others.

By embedding a transformational and inclusive teaching and learning system, businesses and schools can empower their teams to make learning stick.

For everyone. For the long run. No matter what.

Our Mission

To embed a transformational teaching and learning system into organisations, so they can make learning stick, in the long run, for everyone, everywhere, no matter what.

Our Mission

We believe in:

- Impact that endures
- Innovation over compliance
- Building community
- Equity and inclusion
- Mindful communication
- Committing to our values

Unleash Learning in your school

A new way forward for advancing teaching and learning, school-wide.

Unleash Learning is not just another program to add to your school's overwhelm.

It's the system that *finally* brings it all together.

The Results

- Bring together the latest education initiatives - **in service of great teaching**
- **Use new information** - rather than be distracted and stressed out by it
- Become laser-focused on teaching that sticks for good (**not ticking boxes**)
- **Develop teacher and student wellbeing** - in service of teaching and learning
- **Gain the skills** to know where and how new insights fit into teaching
- **Develop a common language** supporting school-wide collaboration and shared goals

Our 3-year professional development model

Life a personal trainer, Unleash Learning works with different cohorts of your school's teaching team over 3 years.

The result? You'll **strengthen and embed** quality teaching and learning across your school - so it will last for years to come.

Year 1 - Learn

Year 2 - Embed

Year 3 - Refine + Certify
